ABOUT THE TEAM

JULIA HARVEY

"We had The Snapshot Cafe as our Wedding photographers and they were brilliant! They have a great eye for composition and light and we now have a set of absolutely stunning, modern and out-of-the-ordinary photos to remember the day by. We feel so lucky to have found them and are so incredibly pleased with the result."

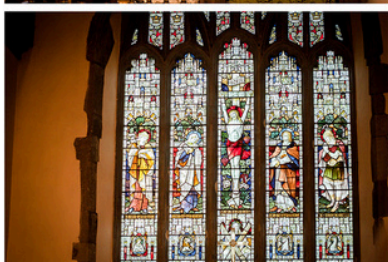

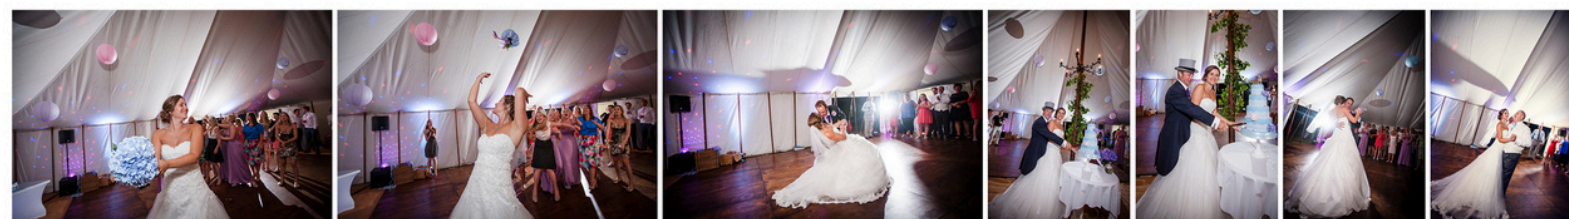

We enjoy the wedding as much as
the guests, and truly happy for
the couple.

It is a blessing to witness, serve,
and be part of this true love story.

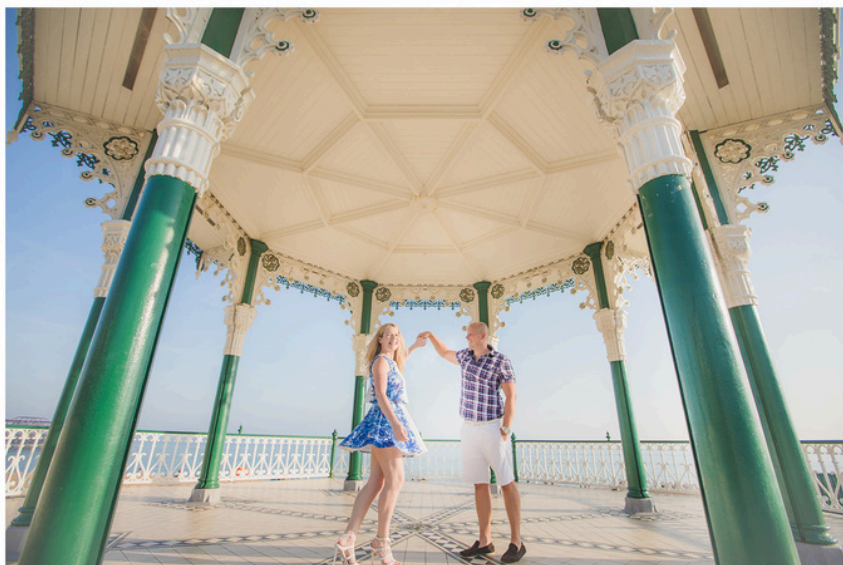

Our style is a combination of reportage and artistic portraiture.
We aim to capture the beauty of your event and your character without disturbing the procedure.
There will be guidance for bride and groom preparation, couple portrait and group photo session only.

We capture the moments that matter most, with candid photos and carefully crafted portraits.
We know you want to cherish your special day, and we want to help you do that.
Our photos will outlive us and become a record of your history.
We trust that your next generation will cherish them as much as you do.

PLANNING

CONSULTATION

Every couple is unique. Consultation is essential to understanding their needs and creating the wedding pictures that reflects their style and dreams. You can also learn more about us, our products, and our work.

Before the consultation, we review the answers of questionnaire, familiarise ourselves with your needs and prepare for the meeting. We may also prepare images and moodboard to illustrate our vision and see if you are interested.

We are flexible in arranging meetings, whether at our studio, your place, a cafe, or a venue that is convenient for you. For overseas clients, we can set up virtual consultations and communicate via instant messenger or calls throughout the preparation process. We schedule monthly check-ins with our clients until the final products are delivered.

During consultations, we review wedding day rundown and suggest amendments for a smooth setup and breakdown. We also ask your preferences, such as your favorite side of your face, colours, ceremony and banquet decorations, photo and video types, and proposal story. We take all these as inspiration, and suggest ideas for couple portraits on the wedding day or engagement shoot.

After the initial consultation, we encourage couples to create a moodboard with us. This will act as a visual guide for us and can also be used by camera-shy couples to prepare for the shoot by practicing posing and direction.

By reviewing the moodboard, we can determine the type of equipment and number of crew members needed to create the desired artwork. This will allow us to provide a more accurate quote.

We might need to review the moodboard and rundown during the planning process. By reviewing the moodboard and rundown throughout the planning process, we can ensure that the shoot goes smoothly and you are happy with the results.

TRADITIONAL WEDDINGS

We have extensive experience planning cultural weddings. Whether you are having a multi-day celebration or incorporating different cultural elements into your one-day wedding, we are here to help.

In fact, we have a dedicated page on our website showcasing Hindu, Muslim, African, and other cultural weddings. Please visit www.foreverlovewedding.com to learn more.

CHINESE WEDDINGS

We are happy to help with everything from the preparation and tea ceremony to the toasts and first dance. We also help couples from outside of Europe plan their dream weddings in Europe. For more details, please visit our website at www.foreverlovejourney.com or contact us directly.

INVESTMENT

Every couple has an unique story, every wedding is different.
The package samples illustrate our core services, we are happy to provide adjust them for your special needs.
Contact us for a consultation today. To book the date, a signed contract and booking fee
(30% of the total for UK weddings / 50% of the total for destination weddings) are needed.

OR

ONE 11"x14" 12 loose prints with luxury print box

PERSONALISATION

BUILD YOUR OWN PACKAGE

Every wedding is unique, and there is no single package that can cater to all.

We understand that your requirements may vary, and we are ready to accommodate them.

For instance, we can provide additional camera operators and cameras, along with live streaming and instant editing services.

To explore the possibilities and tailor our offerings to your specific needs, we invite you to book a consultation with us. Simply reach out to us at info@thesnapshotcafe.com and let us know what you require. We look forward to discussing your wedding plans with you.

PHOTOGRAPHY

OUR PROCESS

MORE THAN POINT AND SHOOT

Before your wedding day

- We will schedule a meeting with you once a month to ensure that you have the best experience planning your wedding.
- We will develop a mood board that reflects your personalities, your dream wedding style, and the special moments you want to capture.
- We will work with your wedding planner and stylist to ensure that everything is seamlessly organised.
- We will provide you with a photographer package that fits your budget and needs.
- If you choose a multiple-photographer package, one photographer will be the director and will focus on creative shots, while the other photographer will take care of the standard shots.

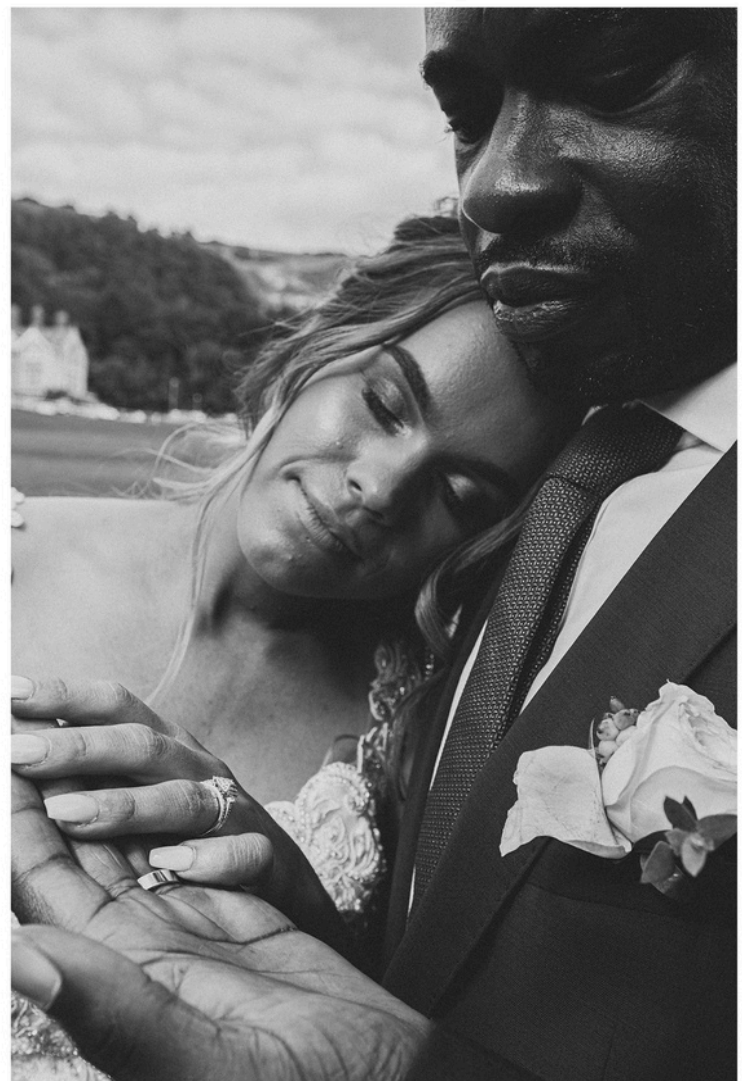

After your wedding day

- We will provide you with teaser photos within a week. The rest of the photos will be processed in 2 months.
- We will schedule a reveal session with you so that you can choose your favorite photos for further art editing process.
- We will help you design albums or other products with your favorite photos.
- We will suggest the best products for your photos and your style.

Our goal

- Our goal is to provide you with a stress-free wedding photography experience that captures the most important moments of your day. We want you to be able to relax and enjoy your wedding, knowing that your photos are in good hands.

We look forward to working with you!

VIDEOGRAPHY

OUR PROCESS STORY TELLING

Before your wedding day

- Same as photography process, we will schedule a meeting with you once a month to ensure that you have the best experience planning your wedding.
- We will develop a storyboard that reflects your love story, personalities, your dream wedding style, and the special moments you want to capture.
- We will offer you the option of creating an engagement video, which can be used as a "save the date" invitation, and edited together with your wedding day footage to create a one-of-a-kind wedding movie.
- We will work with your wedding planner and stylist to ensure that everything is seamlessly organised.
- We strongly recommend that you have two videographers for your wedding film. This is because there are multiple aspects that need to be captured properly, such as the documentary-style footage (A-roll) and the cinematic shots (B-roll). One videographer can take care of audio recording, while the other can handle drone shots and lighting.
- We will also film guest messages during the party. Our couples have found these to be valuable, as not many guests have the chance to give speeches.
- We can also provide instant edit and live stream services. If you need these services, please make an enquiry.

After your wedding day

- We will provide you with teaser video within a week.
- The official highlight video and feature film will be processed in 2 months. Please note that we will only use royalty-free music for editing. We will discuss this with you during our consultation.
- We will schedule a reveal session with you and provide you with links to share the videos with your family and friends.

Our goal

- To show your love story and capture all the happiness and blessings of your wedding day.

We look forward to working with you!

PHOTO AND VIDEO EDITING

ART PHOTO EDITS

We believe that post-production is an essential part of photography. It is the process of refining and enhancing images to create beautiful, finished pieces of art. We tailor our post-production to our clients' individual tastes and preferences.

All of our photos are processed with enhanced colors and white balance correction. Some photos may also undergo detailed retouching. Most of our photos are printed in photo albums or as wall art. We often spend days perfecting a single photo.

It is not necessary for the end result to look exactly like the samples on the right. However, these samples demonstrate the level of quality and artistry that we can achieve in post-production.

VIDEO POST PRODUCTION

Typically, our wedding videography services will provide you with the following end products:

- A 5-minute highlight trailer that showcases the best moments of your wedding day. This trailer is perfect for sharing on social media or with your guests.
- A 30- to 45-minute feature movie that includes the full ceremony, speeches, and reception. This movie is a great way to relive your special day and share it with future generations.
- All footage linked into one clip. This means that you will have access to all of the raw footage from your wedding day, so you can create your own custom videos or edit them however you like.

We will also color grade the highlight trailer and feature movie. This means that we will adjust the colors and brightness of the footage to make it look its best.

ALBUMS AND PRINTS

PHYSICAL PRODUCTS

We take care of all the design and packaging for your beautiful products. We offer a variety of products to choose from, including:

Signature Fine Art Album with Heirloom Box: This is a high-quality album book with luxury cover and an heirloom box. It is a great way to preserve your photos for generations to come.

Flash Mount Photo Album Book: This is a more affordable option that is still stylish and durable.

Fine Art Print: This is a high-quality print on archival paper. It is a great way to display your photos on the wall or on a tabletop.

Canvas: This is a high-quality canvas print. It is a great way to display your photos in a large format.

Acrylic Hanging Picture: This is a high-quality acrylic hanging picture. It is a great way to display your photos in a modern setting.

Framed Picture: This is a high-quality framed picture. It is a classic way to display your photos.

Photo Box: This is a great way to share your photos with others without combining the photos into an album.

Photo Book: This is a high-quality photo book. It is a great way to preserve your photos in a stylish and durable format.

Post-production typically takes around 2 months to complete, assuming that clients choose photos and approve edits promptly. We like to surprise our clients with something special when we deliver their products.

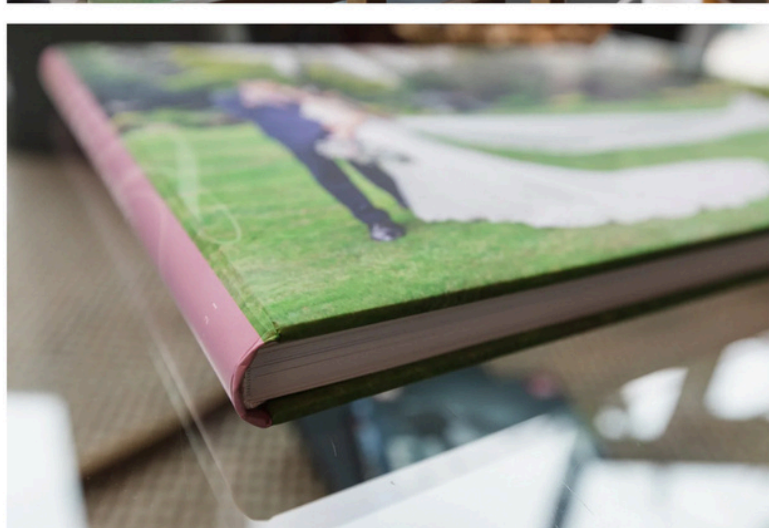

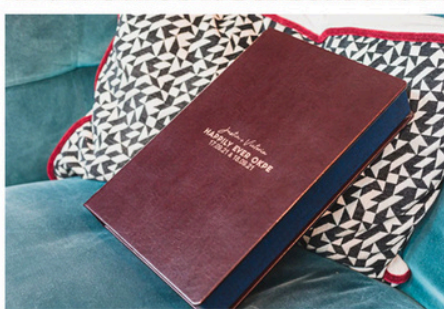

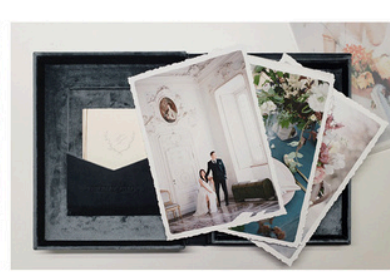

Here are some additional details about our post-production process:

Photo selection: We will work with you to select the best photos from your shoot in the reveal session.

Edits: We will edit your photos to enhance the colors, contrast, and brightness. We will also remove any blemishes or distractions from your photos.

Approval: Once we have edited your photos, we will send you a preview for approval. Once you approve the edits, we will begin the final production of your product.

Delivery: We will deliver your product to you in a stylish and professional presentation.

STYLING

FIND THE PERFECT GOWN

Every girl has a dream bridal dress in mind since she was young. Finding the perfect dress is an exciting process, and we are more than happy to help you find your dream dress!

We will start by listening to your needs and wants in a bridal styling consultation. Then, we will book appointments for you and bring you to wedding dress shopping. We will also take a few photos of you in the dresses with a professional camera, so that you can see how the dresses look on you and compare the looks easily.

Before going to the appointments, we can come to your place for a hair and makeup session in the morning, so that you can have more ideas for your total look. We can usually go to 2-3 shops in a day.

If you are ready to start your search for the perfect bridal dress, please contact us today to schedule a consultation. We would be honored to help you find your dream dress.

The styling team is led by Tina, the main photographer in our production team, is also a fashion designer with years of experience dressing her clients. Feel free to ask her for advice on anything related to fashion, from choosing the right outfit for your event to accessorising your look. She is always happy to help.

BRIDAL HAIR & MAKE UP

We are proud to serve as your hair and makeup artists. During our consultation, we will come up with ideas for your bridal look. We will also need to know your hair type, clothing and accessories choices, and any ideal styles you have in mind.

We strongly advise our brides to have a hair and makeup trial, which lasts around 3 hours. During the trial, we will try 3-4 different combinations and decide on the best look for you.

The process is as follows:

- Simple blow dry
- Curl or straighten, volumise hair
- Makeup application
- Finish hair style

Artificial lashes, powder, cosmetics, and hair pins are included. However, if you have any special preferences or sensitivities, please bring your own makeup products.

If you would like to change your hair and makeup style for your reception, we can accommodate that. Please contact us for more details.

CONSULTATION

SCHEDULE A MEETING

To ensure production quality, we only book 25 weddings a year. If you like our work and style, contact us today and schedule a meeting.

RUNDOWN CHECKLIST

2 WEEKS BEFORE THE WEDDING

Before the wedding day, we will review the details of your event again, prepare all the necessary equipment, and confirm that all of our camera operators are available and ready to work. If there are any unexpected problems, we will contact our backup crew and make sure that they are familiar with the details of your event.

Here are some additional details about what we will do to prepare for your wedding day:

- Review the details of your event. We will review the details of your event, such as the date, time, location, and your specific requirements, to make sure that we are fully prepared.
- Prepare all the necessary equipment. We will prepare all of the necessary equipment, such as cameras, lenses, microphones, and lighting, to ensure that we can capture your event in the best possible way.
- Confirm that all of our camera operators are available and ready to work. We will confirm that all of our camera operators are available and ready to work on your wedding day.
- Contact our backup crew. If there are any unexpected problems, we will contact our backup crew and make sure that they are familiar with the details of your event.

We are committed to providing you with the highest quality videography services on your wedding day. We will work hard to ensure that your event is captured in a beautiful and memorable way.

PREPARATION

To capture the full story of your wedding day, we recommend that you have bride and groom preparation photos taken. When the bride starts getting her makeup done, we will take detail shots of her dress, accessories, shoes, bouquet, and jewelry. We will also take some environmental shots of the venue. After that, we will take some photos of the groom (if the preparation locations are far apart, we will need a second team to the package, or take these shots when the groom and groomsmen arrive the wedding venue). Then we will return to the bridal room to take some getting ready shots and dressing up shots. During this session, we will typically take some individual photos of the bride and groom, as well as group photos of the ushers, bridesmaids, and relatives.

TRAVEL TO THE CEREMONY

Depending on your needs, we can adjust our plans. Most of the time, we will arrive at the ceremony venue ahead of time after taking preparation photos at the groom and bride's homes. This allows us to set up our equipment and capture the venue as it is being set up. If you would like "leaving home" photos, we will discuss the details with you so that everything goes smoothly on the day of the wedding. The essential photos for this part of the day would be:

The groom, best man, and ushers getting into the carriage.

The bride, father of the bride, bridesmaids, and relatives getting into the carriage.

Some shots of the inside of the carriage.

The groom and guests entering the venue.

The bridal party's arrival.

Sometimes, if the groom preparation photos are not required, the second team will take shots in the ceremony venue instead.

THE CEREMONY

If couples book two photographers, the lead photographer will be stationed at the front of the ceremony, while the second photographer will be stationed at the back or mezzanine. This allows us to capture as many angles as possible. The videographers will also be positioned in different places. We will discuss everything in a team meeting before the wedding so that we can avoid any disturbance during the ceremony.

With this arrangement, we can:

- Capture every moment. By having two photographers and two videographers, we can capture every moment of your wedding from different angles. This ensures that you have a complete record of your special day.
- Avoid distractions. By positioning our photographers and videographers in different places, we can avoid distracting the guests and the couple during the ceremony.
- Create a beautiful film. Our team of experienced photographers and videographers will work together to create a beautiful film of your wedding day. This film will be a cherished reminder of your special day for years to come.

CONFETTI AND GROUP PHOTOS

Everyone loves confetti, and it usually makes for some great romantic and cheerful shots. Right after the confetti toss, it's a good time to gather everyone for a group photo before they head to the reception for drinks. If there are more than 200 guests, the small group photo session may take an hour. Please send us a list of the groups you would like us to photograph before the wedding, and have a member of the bridal party or best man help us coordinate.

COUPLE PORTRAITS

The couple's portraits are some of the most intimate and special shots of the day. We recommend allowing at least 30 minutes for this session. The more time we have, the more and better shots we can get. We can also take some photos with the bridesmaids and groomsmen. These photos are a great way to capture the love and intimacy between you and your love ones. They can also be a way to show off your style and personality. The more time we have, the more creative we can get with the shots. We can take photos in different locations, such as the ceremony venue, the reception venue, or a nearby park or garden. We can also take photos with the bridesmaids and groomsmen. These photos can be a fun way to capture the camaraderie of the wedding party.

FIRST DANCE AND PARTY

The first dance is a traditional and romantic part of the wedding reception. It is a moment for the couple to celebrate their love and commitment in front of their family and friends. After the first dance, the guests join in the dancing and the party begins!

We will discuss your plans for the first dance so that we can capture all of the special moments. Some couples practice for months, while others prefer to have a group dance. We will be ready with our cameras to capture all of the fun and excitement.

We also offer a guest message service. This is a great way for your guests to give their blessings to you and your partner if they do not have a chance to give a speech during the banquet. We will film short video messages from your guests and edit them together into a montage. This is a popular option for couples who do not want to watch an hour of dancing footage.

Recently, there has been a trend for couples to have a grand exit before leaving for their carriage. This can include sparklers, fireworks, LED balloons, confetti, and more. We are happy to provide full day service beyond the normal coverage time with the first dance as the end.

BANQUET

During the banquet, guests relax, socialize, enjoy food, performances, speeches, and the cake cutting. There are a lot of details in this part of the day that you may want us to capture. We will confirm the rundown with you two weeks in advance so that we can plan accordingly.

We understand that couples are often concerned about meal arrangements for the crew. For large parties that require more photographers and videographers, we take turns resting and having dinner. For intimate weddings, we take our break when guests are enjoying their food. However, we are flexible in terms of taking breaks. We appreciate any food provided for staff by the venue or the couple.

Some couples would like to display some images and a short video of the ceremony during the party. We would normally use the break time to do instant edits for them. If you require this service, please let us know in advance. We may also use this opportunity to take more couple portraits during sunset and magic hour.

JANAKAN ARULKUMARASAN

“My wife and I used The Snapshot Cafe as our wedding photographers and videographers, and we are absolutely delighted. Tina met with us as often as needed and helped us feel assured throughout. She arranged a pre-engagement shoot for us which was incredibly fun, but also gave us an opportunity to discuss what specific styles we wanted on the photos. In the lead-up to the wedding, Tina was incredibly helpful, attending rehearsals and meeting with our church minister to ensure that everyone was happy. On the day itself, the team was professional, fun, and very hard working, also very accommodating for unexpected changes on the day. Many of our guests commented that they had never seen photographers work so hard! The results speak for themselves! We sincerely and highly recommend The Snapshot Cafe!”

TESTIMONIALS

AMY & MATTHEW MEDLAM

"Tina and Edward were both amazing throughout the whole day making sure everyone knew where to be positioned. When we received our pictures we were overwhelmed by how beautiful they were, they are just perfect, everything we could wish for and more! As for the video we have advised everyone we know it's the best thing alongside your photographer you could pay for on your wedding day, even my tight-fisted husband now agrees it was the best money ever spent. It brought us both and family members to tears it was amazing. We can't wait to have kids and share it with them! Thank you again, Tina and Edward, you are both outstanding and VERY talented."

CHANG & SIMON JOHNSTONE

"Tina & Edward did a great job with our engagement shoot and wedding photographs – they come up with some wonderfully creative ideas to augment the traditional wedding photos that, combined, made our album truly special and personal to us. Both were a pleasure to work with – they responded quickly to emails, provided electronic copies of photos as standard, happily accommodated our requests and clearly wanted us to be delighted with the end result (which we were!). We'd definitely recommend them – they were professional, friendly and patient, allowing us to relax and enjoy our wedding day!"

ABOUT THE TEAM

TINA

I love the feeling of love in the air. I love the sight of a bride walking down the aisle, the sound of vows being exchanged, and the tears of joy shed by loved ones. I love capturing these moments and creating lasting memories for my clients.

I am a professional photographer and hair and makeup artist with a passion for love and weddings. I graduated from Central Saint Martins Fashion Design course and have been working in the industry for over 10 years. I am skilled in capturing spontaneous and classic moments, and I pay attention to emotional expression, body language, styling, details, and colors.

I am fluent in English, Cantonese, and Mandarin. I would be honored to be a part of your special day and capture your love story in photographs.

EDWARD

I enjoy the simple things in life, like chocolate, coffee, riding my bike, playing with animals, and watching inspiring movies.

I also love to film and photograph love stories. I love capturing the moment that two people say "I do," as well as all of the other special moments that make up a wedding or event. It is a privilege for me to share in these happy moments and to celebrate with my clients.

I graduated from a journalism course and have been working as a journalist for years. I know how to tell your story through my reportage-style photos and videos. I am skilled at capturing the candid moments that tell the true story of your event. I am also a great communicator and will work with you to understand your vision and create a final product that you love.

If you are looking for a photographer or videographer who can capture your love story in a beautiful and meaningful way, I would be honored to work with you. Please contact me today to learn more about my services.

THE SNAPSHOT CAFE

Creative, artistic and innovative, The Snapshot Cafe is reinventing a wholly modern approach to imagery. Under the vision of the founders Tina & Edward, the studio has redefined photography and videography service, further reinforcing its position as one of the London most desirable studios. Contemporary, romantic, eclectic – The Snapshot Cafe produces exquisite result with great quality and attention to detail.

The Snapshot Cafe believes that your events, beauty, and emotions should be recorded in a way that is true to yourself, but not losing creativity and artistic moods. The studio is able to capture the day in a way that will keep the memories alive for generations. Established in London in 2013, The Snapshot Cafe has gained the knowledge to serve clients from different cultures, including British, Oriental, Asian, African, and Middle Eastern, in their engagements, weddings, and other life events. The Snapshot Cafe also does portraits, travel photos, as well as fashion and product promotion campaigns.

Clients receive bespoke image design services in a wide range of ways, including image consultation, hair and makeup, gowns and accessories hire and design, as well as picture albums, photo books, canvas and framed picture sets printing. The Snapshot Cafe aims to pamper every client with 5-star service.

BOOK NOW

We offer a variety of set packages, but we understand that no one package is perfect for everyone. That's why we are flexible with adjusting our packages to fit your specific requirements and budget.

We cover locations in the UK, Europe, and other world destinations. We are committed to providing you with a memorable and enjoyable experience. Please contact us today to discuss your specific needs and to get a quote.
